## Employment information

We estimate West Sussex had 23,500 adult social care filled posts in the local authority and independent sectors. These included 1,800 managerial roles, 1,300 regulated profession roles, 16,500 direct care (including 14,000 care workers), and 4,000 other-non-care proving roles.

The average number of sickness days taken in the last year in West Sussex was 4.8, (5.1 in South East and 5.3 across England). With an estimated directly employed workforce of 20,500, this means employers in West Sussex lost approximately 98,000 days to sickness in 2023/24.

Over half of the workforce (59%) usually worked full-time hours in West Sussex and 41% were part-time.

Less than a quarter (18%) of the workforce were on zero-hours contracts.

## Workforce demographics

The majority (78%) of the workforce in West Sussex were female, and the average age was 44.3 years old. Workers aged under 25 made up 8% of the workforce and workers aged 55 and above represented 27%. Given this age profile approximately 6,500 posts will be reaching retirement age in the next 10 years.

Across England 73% of the workforce identified as British, while in the South East region this was 67%. An estimated 73% of the workforce in West Sussex identified as British, 16% identified as of a non-EU nationality and 11% identified as of an EU nationality, therefore there was a higher reliance on non-EU than EU workers.

## Pay

Table 1 shows the full-time equivalent annual or hourly pay rate of selected job roles in West Sussex (area), South East (region) and England. All figures represent the independent sector as at March 2024, except social workers which represent the local authority sector as at September 2023. At the time of analysis, the National Living Wage was £10.42.
