

Messages you can use to promote ASC-WDS to providers in your area

The Adult Social Care Workforce Data Set (ASC-WDS) helps providers to manage their teams and provides crucial intelligence to key decision makers such as Government, DHSC, CQC and local authorities. ASC-WDS provides access to funding for training, safe and free management of staff and training records and the ability to benchmark your workplace against similar providers. Users will also gain special offers and discounts from Skills for Care and some endorsed training providers. [Find out more.](#)
